Deliver transformation successfully with our:

Implementation Manager

Your challenges

Sarah,
Operations
Director

"We're eager to put improvements in place, but daily tasks are slowing us down and getting in the way of progress. With limited resources, skills and time to implement change, I worry that we're going to waste progress already made and let projects fizzle out. I want to achieve tangible outputs and ROI, as well as boost my staff's ability to implement change initiatives in the future."

How we can help you

"Our Implementation Manager takes a leading role in delivering your project. With this offering supplementary to our consultancy, we can guide you through a project from start to finish with limited disruption to services, avoiding employee frustration and wasted time, effort, and money."

It's easy to tick a box, but it's much more challenging to deliver a project with tangible outputs and ROI. If Covid-19 has taught us anything, it's to expect the unexpected; things change which means your project may need to be adapted to meet your customer's requirements. We help you meet your goals regardless of the changing world around you; we assign you a dedicated Implementation Manager who is fully invested in the success of your project. They are skilled in Agile thinking and risk management, ensuring a high ROI and stakeholder satisfaction.

By making your workforce part of the implementation process, we ensure they learn the skills required to continuously improve, in turn meaning your customers continue to receive the best possible service. We positively engage employees to make further improvements independently without relying on external consultancies; maximising your ROI, improving staff satisfaction, and enhancing your customer experience."

Rhiannon,
Director at
Ad Esse

Business benefits

- Improved customer & staff satisfaction
- Improved service performance; changes effectively implemented
- Guaranteed outputs and ROI delivered

Our methodology

Although tailored to your bespoke needs, we follow a proven methodology to ensure consistent excellence and to help you get the most value from your investment.

IMPLEMENTATION MANAGER

“We simply could not have implemented the changes without Ad Esse’s support”

Adrian Jacobs, Service Hub Manager at Poplar HARCA

Client Story

“I recently needed support to progress my new operating model and matching restructure. Less than a week after contacting Ad Esse they were able to place an Implementation Manager with housing sector experience to support me. She quickly developed relationships across my directorate and took all the stress and strain out of the tasks that needed completing.

She was committed, professional and delivered independently to tight timelines. Without her support I wouldn't have been able to meet my board deadlines to approve the changes. I'd recommend the Ad Esse Implementation Manager to anyone who needs expert resources, that will hit the ground running, to coordinate and deliver projects at pace.”

Annemarie Roberts, Operations Director at Golding Homes

Key Stats

Worldwide struggle to implement projects successfully:

- 71% of projects are not completed on time
- 57% of projects go over budget
- 60% of organisations fail to reach the full benefits of their projects

Why choose Ad Esse?

We're masters of change; helping organisations with a social purpose transform the way they work to create a long-lasting impact on the people who need it most. We are focussed on continuous improvement and work with your frontline staff, as well as senior management. Our team have experience within the sectors we serve and we base all our work on Lean principles.
